Confirmation on PE100 pipes (black) in SDR17

Herewith we confirm that AGRU's PE100 pipe in SDR17 (AGRU code: 25.705.0050.17) can be used for outdoor application.

Due to the fact that the PE100 black material is containing carbon black it is resistant against UV-radiation (carbon black is stabilizer against UV-radiation). The stabilization is a long term, thus for a period of at least 10 years no significant change of the PE100 black material properties by the UV light is expected.

Kind regards

Manfred Wimmer
